Magnesium (Mg)	2.2%
2.2% Water Soluble Magnesium (Mg)	
Sulfur (S)	4.0%
4.0% Combined Sulfur (S)	

Source of Nutrients:

Hydrolyzed feather meal, meat meal, bone meal, blood meal, fish meal and langbeinite.

*This product contains 7.2% slow release nitrogen from hydrolyzed feather meal, meat meal and fish meal.

General Information:

Nature Safe 8-3-5 Stress Guard Fertilizer is formulated to give the end user a complete package of primary and secondary nutrients ideal for amending stressed areas such as closely mowed turf and high sandy soils. It is an excellent fertilizer to use on new turf or during renovation, overseeding and aeration. Nature Safe 8-3-5 has various meat by-product meals which provide nitrogen that will slowly release over a 7-8 week period. Carbohydrates in the form of simple sugars and starches will stimulate microbial activity. Humus has been added to improve Cation Exchange Capacity (CEC), buffer the soil against extreme salt concentrations and improve soil structure for tolerance during heat and drought conditions. Nature Safe 8-3-5 is non-burning and very low in salt. Virtually all of the product is utilized through complete plant uptake, with minimal leaching and volatilization. Nature Safe acts as a sponge in retaining moisture and nutrients for plant use, especially in sandy soils.

Directions for Use:

Established Turfgrass: Use as a topdressing for tees, roughs and fairways or any established turf. Apply 6.25 to 12.5 lbs. per 1,000 sq. ft. (0.5 lb. to 1 lb. of actual N). Three to four applications per year are recommended. Results are enhanced during aeration. Covers from 4,000 to 8,000 sq. ft.

Super Fine grade: Suggested for use on turf mowed at heights of 1/8" or lower.

Fine grade: Suggested for use on turf mowed at heights between 1/8" and 1/2".

Coarse grade: Suggested for use on turf mowed at heights over 1/2".

New Turfgrass Seeding: Incorporate 12.5 lbs. per 1,000 sq. ft. into the top 2-4 inches of the seedbed before seeding or sodding. Covers up to 4000 sq. ft.
