

“I use Acclaim because I have consistent results. I tried Drive, but it wasn’t doing the job and that is just another thing you have to mix. Acclaim is easier to use. I make sure my staff always has the product in the trunk.”

Phyllis Hodge, pH Lawn Care, Gloucester, MA

ACCLAIM
EXTRA

WHAT IT IS.

Post-emergent crabgrass and goosegrass herbicide for cool season turf

WHAT IT DOES.

Kills crabgrass, goosegrass and other annual and perennial grasses in cool season turf faster than any other product on the market. It can also be used to suppress bermuda-grass in zoysiagrass.

WHY IT BEATS THE COMPETITION.

- The only product that controls goosegrass in cool season grass
- Powerful – often works in a single treatment
- Economical – broad rate range, depending on size of crabgrass
- Usage, timing and precautionary handling are more flexible

HOW IT MAKES YOUR JOB EASIER.

You’re the hero. You can stop the weeds everyone hates most, often in a single treatment—and then move on.

THE SCIENCE OF ACCLAIM® EXTRA HERBICIDE.

Acclaim® Extra herbicide is the one post-emergent herbicide that controls crabgrass, goosegrass and Japanese stiltgrass effectively, with good tolerance on desirable turf. It controls crabgrass at many growth stages – from spikes to 5-tiller.

Acclaim Extra is absorbed primarily through foliage. It's most effective during periods of active weed growth, and is rainfast about one hour after drying. Susceptible weeds stop growing, turn red or purple, then die within one week.

Controls crabgrass, and then some.

- Silver crabgrass
- Goosegrass
- Smooth crabgrass
- Hairy crabgrass
- Barnyard grass
- Foxtail species
- Panicum species
- Johnsongrass (seedling)
- Johnsongrass (rhizome)*
- Sandbur
- Sprangletop
- Japanese stiltgrass
- Common bermudagrass*

*Suppression

Choose your package size.

- 2x2.5 gallon case
- 4x1 gallon case
- 12x1 pint case

Faster, simpler, stronger.

- Economical, because it controls all stages of crabgrass
- Suppresses bermudagrass in cool season grass and some warm season grasses
- Water-based, non-solvent formula for ease of use
- Single isomer allows for lower use rate
- A great IPM (Integrated Pest Management) tool

Frequently asked questions.

>Q What about tolerance?

>A Cool season turfgrass species are generally tolerant to Acclaim Extra herbicide, including creeping bentgrass (special use directions), perennial ryegrass, fine fescue, tall fescue, annual bluegrass, zoysiagrass, and Kentucky bluegrass.

>Q How can I tank mix Acclaim Extra for efficient treatment in just one application?

>A It's easy. Acclaim Extra is compatible with most commonly used pre-emergent herbicides, fungicides and insecticides. Just read the label carefully for step-by-step tank mixing instructions.

- For a single treatment that provides annual bluegrass control, tank mix Acclaim Extra with pre-emergence herbicides
- For broadleaf weed control and bermudagrass control, tank mix Acclaim Extra herbicide with Turflon® and Turflon® Ester 4EC
