

Gary's Green™ 18-3-4+iron

Foliar Specialty Product

Gary's Green™ will give you a fast, quality green up, without a surge of growth and denser healthy turf.

THE BENEFITS OF GARY'S GREEN™

- **Tru-Foliar™:** Gary's Green™ is designed to be foliar applied and completely foliar absorbed while it is drying on the target plant.
- **Highly Efficient:** Gary's Green™ is a complete analysis fertilizer and is effective at low rates.
- **Green-up without rapid growth:** Gary's Green™ contains a unique proprietary combination of plant-based amino acids, organic acids and complex polysaccharides that buffer the nutrient compounds and prevent rapid growth.
- **No risk of plant tissue burn:** the organic complexing and chelating agents contained in Gary's Green™ also prevent plant tissue burning much beyond recommended rates.
- **Quick visual response:** the chelating and complexing agents contained in Gary's Green™ are rapidly absorbed into the plant tissue to provide a rapid and sustained green-up.
- **The nutrients are locked in the plant:** once Gary's Green™ has been absorbed into the plant, there is no risk of leaching.
- **Environmentally friendly:** the organic and amino acid base contained in Gary's Green™ is used as a plant food source by both plants and microorganisms as it is biodegraded.
- **Highly compatible:** Gary's Green™ is compatible with most fertilizers, herbicides and pesticides available on the market today, however a jar test is still recommended.
- **Gary's Green™** represents the most advanced level of foliar technology available today: Gary's Green™ is a unique mix of proprietary technology that is exclusive to all of Grigg Brothers products. This technology is the result of 40 years of foliar absorption research by a world renowned plant nutritionist.
- **Gary's Green™** is rapidly becoming the Foliar Icon: Since its introduction in 1995, Golf Course, and Sports Turf Managers worldwide are utilizing Gary's Green™.

GUARANTEED ANALYSIS

Total Nitrogen (N)	18.0%
2.0% Ammoniacal Nitrogen	
1.5% Nitrate Nitrogen	
14.5% Urea Nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	3.0%
Soluble Potash (K ₂ O)	4.0%
Chelated Copper (Cu)	0.12%
Chelated Iron (Fe)	1.0%
Chelated Manganese (Mn)	0.1%
Chelated Zinc (Zn)	0.1%

Derived from: Urea, Ammonium Phosphate, Potassium Phosphate, Potassium Nitrate, Iron, Copper, Manganese and Zinc Glucoheptonates.

Foliar Application Rates

Add Grigg Brothers **Ultraplex™** to any Grigg Brothers foliar application at the rate of 3 fl oz per 1000 Ft². **Ultraplex™** contains micronutrients, biostimulants and **Intake™**, a non-ionic organic surfactant which decreases drop size and enhances wetting of the entire surface area of the plant.

IMPORTANT: For best results apply as a foliar spray early in the morning or late evening. Allow to dry on plant before irrigation. Apply with 1-2 gallons of water per 1000 Ft².

COOL SEASON TURF GRASSES: As a foliar - maintenance rate 4-6 fl oz per 1000 Ft². Severe deficiency rate 8-12 fl oz per 1000 Ft². weekly or bi-weekly as needed.

WARM SEASON TURF GRASSES: As a foliar - maintenance rate 4-8 fl oz per 1000 Ft². Severe deficiency rate 8-12 fl oz per 1000 Ft². weekly or bi-weekly as needed.
