

“Our fairways are 80 percent rye but we also have some *Poa* that we like to keep to a minimum, and this program does it for us. We also have some mature *Poa* in our fairways that we want to keep and spring application takes it out. But, by making a fall Prograss application, we don’t have a single juvenile seedhead problem in the spring and we still keep our mature *Poa*.”

Scott Bender, Director of Grounds,
Marriott Griffin Gate Resort, Lexington, KY

Recommended Rates and Timings ¹

Turf Type	Main Target Pests	Start	# Apps	Application INT (Days)	Use Rate ²		Overseeding Safety Interval ³ (Weeks After Treatment)	Application Safety Interval ⁵ (Weeks After Emergence)
					Gal/Acre	Oz/1000 ft ² .		
Ryegrass	Annual Bluegrass	Fall Spring ⁴	2-3 1-2	21-28 21-28	2/3–11/3	2–4	1–2	1–2
Kentucky Bluegrass	Annual Bluegrass	Fall	2-3	21-28	1/2	1 1/2	6	8
Creeping Bentgrass	Annual Bluegrass	Fall Spring ⁴	2-3 1-2	21-28 21-28	1/2 1/2	1 1/2 1 1/2	4	4
Turf-Type Tall Fescue	Annual Bluegrass	Fall	2-3	21-28	1 1/2	2–4	0	2-3
St. Augustinegrass (Est. Turf)	Bermudagrass Suppression	Spring	2-3	21-28	1–2	3–6	NA	NA
Overseeded (ryegrass) Bermudagrass:								
Dormant Bermudagrass	Annual Bluegrass	Fall	2-3	21-28	1/2–11/3	1 1/2–4	NA	NA
Nondormant Bermudagrass	Annual Bluegrass	Fall	2	21-28	2/3–3/4	2–2 1/4	NA	NA

¹Refer to label text for further instructions regarding each grass species.

²Apply recommended rate of PROGRASS in 20 to 60 gallons of water per 1,000 ft².

³Interval applies to overseeding specific grass on the same type of grass after last PROGRASS treatment.

⁴Use spring application after previous fall treatments only.

⁵Refers to interval in which PROGRASS may be safely applied to specific grass following seed emergence.

NA-Not applicable.

WHAT IT IS.

Selective herbicide that controls *Poa annua* in cool-season grasses and overseeded bermudagrass.

WHAT IT GIVES YOU.

- Controls *Poa annua* during germination and growth periods every season
- Also controls a wide variety of annual grasses and broadleaf weeds

WHY IT BEATS THE COMPETITION.

- No other herbicide gives you both pre- and post-emergent control of *Poa annua*
- Outperforms generic SC formulations

HOW IT MAKES YOUR JOB EASIER.

- Controls the greatest nuisance to your turf without damaging it.

PROGRASS

RELAX. YOU'RE BACKED BY BAYER.

Training. Troubleshooting. Innovating. Count on us to stand behind you now and for years to come. Get science and support at BackedByBayer.com or 1-800-331-2867.

THE SCIENCE OF PROGRASS® HERBICIDE.

Unlike other selective herbicides, Prograss provides both pre- and post-emergent control of *Poa annua*. In fact, a customized program can give you *Poa* control year-round.

Controls your biggest headaches.

- *Poa Annua*
- Pre-emergent/Annual Grasses
- Large crabgrass
- Barnyard grass
- Green foxtail
- Yellow foxtail
- Canary grass

Pre-emergent/Annual Broadleaves.

- Burclover
- Common chickweed
- Common purslane
- Redroot pigweed

Post-emergent/Annual Broadleaves.

- Common chickweed
- White clover
- Pre- and Early Post-emergent/Annual Grasses
- Smooth crabgrass

Approved for many uses.

- Golf course fairways
- Sodfarms
- Cemeteries
- Commercial and homeowner lawns

Frequently asked questions.

- >Q Why is *Poa annua* such a problem for golf course superintendents?
- >A *Poa annua* is an annual bluegrass that favors cool, moist conditions for germination and growth, flourishing from fall to spring. Thus, it has a strong competitive edge over many course turfgrasses, and can dominate a stand of grasses that are mowed closely and irrigated regularly.
- >Q Which turfgrasses are tolerant of Prograss?
- >A Prograss can be used safely on bermudagrass (dormant, overseeded with ryegrass), creeping bentgrass, Kentucky bluegrass, ryegrass, turf-type tall fescue and St. Augustinegrass (established).
- >Q Is Prograss safe for overseeded turf?
- >A Yes. If safety intervals listed on the label are followed, Prograss can be used after overseeding.

THE SCIENCE OF YOUR PROFESSION.

Every ounce of Prograss is Backed by Bayer, and all the science and support you need to get the job done right. That's what you should expect from an industry leader.

Our staff is your staff.

No one invests as much in product development as Bayer. is unrivalled around the world. Our field sales and technical representatives are always ready to help you. You'll find them, along with additional information, 24 hours a day, 7 days a week at BackedbyBayer.com.

Product support year round.

We'll help you diagnose problems, troubleshoot issues, and get every product benefit you expect—and even some you don't. We also offer interactive training throughout the year.

Complete satisfaction guarantee.

Bayer guarantees your satisfaction, after all, your success is our success.

Ongoing product support.

Ask us for expert troubleshooting and technical help designed to provide you with all the tools you need. It's science. It's support. It's more ways to succeed.
