

TOP TEN LIST OF BENEFITS

SpectroTM90^{WDG}

TURF & ORNAMENTAL FUNGICIDE

- 1. Ease of handling.** Concentrated 90% water dispersible granules
- 2. Easier measuring** Package-mixed active ingredients
- 3. Optimum combination** 4:1 ratio of chlorothalonil and thiophanate-methyl
- 4. Enhanced performance** WeatherStikTM and 3336TM formulation technology
- 5. Greater flexibility of use** Preventive and curative rates of application
- 6. Resistance management** Two modes of action
- 7. Complete plant protection** Contact and systemic properties
- 8. Reduced REI** New 12 hour REI means easier to use for ornamentals
- 9. Broad spectrum** Control of 16 diseases on all types of fine turf – both warm and cool season
- 10. Greater utility of use** Control of 68 diseases on over 100 horticultural plant species in greenhouse, interiorscape, nursery or landscape environments

TECHNICAL INFORMATION

CLEARY CHEMICAL CORPORATION • 800-524-1662 • www.clearychemical.com

Spectro™ 90 WDG

ACTIVE INGREDIENTS

- Chlorothalonil
- Thiophanate-methyl

FORMULATION

- Physical combination using 3336™ and Daconil WeatherStik™
- 90% water dispersible granule
- 72% Chlorothalonil
- 18% Thiophanate-methyl

TURFGRASS

Turfgrass uses

- For use on all fine turfs, including but not limited to commercial lawns, athletic fields, sod, cemeteries and golf courses (tees, greens and fairways)
- All warm and cool season turfs

Turfgrass diseases controlled

- Preventive and/or curative control of Anthracnose, Brown Patch, Copper Spot, Dollar Spot, Gray Leaf Spot, Melt Out, Red Thread, Gray and Pink Snow Mold, Stem Rust, Dichondra Leaf Spot, Downy Mildew, Fusarium Blight, Fusarium Patch, Powder Mildew, Algae

Turfgrass Use Rates

- Rates for most diseases are 2-5.75 oz/1000 sq ft at 7-14 day minimum retreatment intervals.
- Up to 21 day treatment duration under certain conditions.
- See label for specific instructions on turfgrass diseases

ORNAMENTAL

Ornamental Uses

- Nurseries, greenhouses, landscapes, interiorscapes
- 36 species of trees and shrubs, 35 species of flowers, bulbs and ground covers, 37 species of foliage plants.

Ornamental Disease Control

- 68 diseases controlled, such as Leaf and Flower Spots & Blights, Powdery Mildews, Scabs and Stem & Crown Rots

Ornamental Use Rates

- 1.0 - 2.0 lbs/100 gallons of water unless otherwise stated on label.
- Repeat applications at 7-21 day intervals as needed
- See label for specific instructions on ornamental diseases.

PACKAGING

- 5 pound resealable zipper bag.
- 20 pound case (4 bags/case)

**Always read the label and follow directions
when using SPECTRO 90^{WDG}**
